

Confused About Where to Go for Care?

SmartER CareSM options may save you money

If you aren't having an emergency, deciding where to go for medical care may save you time and money.

You have choices for where you get non-emergency care — what we call SmartER Care. Use the chart below to help you figure out when to use each type of care.

When you use in-network providers for your family's health care, you usually pay less for care. Search for in-network providers in your area at bcbsil.com or by calling the Customer Service number on your member ID card.

If you need emergency care, call 911 or seek help from any doctor or hospital immediately.

Urgent Care Center or Freestanding ER Knowing the Difference Can Save You Money

Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers, but costs may be higher. A visit to a freestanding ER often results in medical bills that may be 10 times the rate charged by urgent care centers for the same services.² Here are some ways to know if you are at a freestanding ER.

Freestanding ERs:

- Look like urgent care centers, but have the word "Emergency" in their name or on the building.
- Are open 24 hours a day, seven days a week.
- Are not attached to and may not be affiliated with a hospital.
- Are subject to the same ER member share which may include a copay, coinsurance and applicable deductible.

Find urgent care centers³ near you by texting⁴

URGENTIL to **33633**.
