#### **Pension Contribution Rate and Benefit Accrual**

To determine the amount credited towards your monthly pension benefit, multiply the first \$9.00 per hour worked by .015 (or 1.5%). For example, if you worked 1,200 hours in a Plan Year (June 1st through May 31st), your monthly Normal Retirement Benefit would be calculated as follows:

$$1,200 \text{ hours worked} \times \$9.00/\text{hour} \times .015 = \$162.00 \text{ per month}$$

Note that the remaining pension contribution rate not credited towards your monthly benefit is set aside in a Pension Reserve Account. This reserve could be used for such things as helping overall plan funding or for future retiree benefit increases.

Your annual pension statement shows the pension credit you have accrued to date for each Plan Year in the Fox Valley and Vicinity Laborers Pension Fund. Contact the Fund Office for a statement or prepare one on the Participant Dashboard at [www.fvlab.com](http://www.fvlab.com).
